PERSONAL PROJECTS

Automatic Temprature Sensing Gate (12/2021 - 02/2022)

- The Project was to build an Automatic Temperature sensing gate for covid safety. m. This works as usually the doors of this gate are always open but when a person is having high temperature or greater temperature then the buzzer will get alarmed and the gate will automatically get closed.

Desktop Voice Assistant (11/2022 - 01/2023)

- This is commonly used in voice assistants like Alexa, Siri, etc. Python provides an API called SpeechRecognition to allow us to convert audio into text for further processing.
